## HDD / Trenchless Projects

As the leading manufacturer for mud recycling system, GN Solids Control provide start-of-the art technology for mud recycling and mud mixing solutions in the HDD / trenchless industry with capacity from 200GPM to 1500GPM for world wide contractors or rig manufacturers include but not limited to following :

- 1.1) Vermeer (Leading Manufacturer for HDD rig from USA)
- 1.2) TT Asia Pacific ( Leading Manufacturer for HDD rig from UK)
- 1.3) CNPC-CPP (China Petroleum Pipeline Bureau, Largest HDD Contractor in China)
- 1.4) Pipeline Drillers ( Australia top HDD Contractor)
- 1.5) Tech Drill & Codmah ( Australia HDD Contractor)
- 1.6) Strega (Thailand Big HDD Contractor)
- 1.7) Punj Lloyd (Worldwide Projects)
- 1.8) Hongkong Airport Project
- 1.9) Promole Korea Projects
- 1.10) Gypsum & Trenchless India ( India HDD Projects)
- 1.11) FMQ Pipeline Specialist (Saudi Arabia)
- 1.12) Middle East & Africa HDD Projects
- 1.13) Europe and Russia HDD Projects
- 1.14) China Domestic HDD Projects
- 1.15) India Trenchless Engineering Company
- 1.16) Sinopec Trenchless Engineering Company

HDD1.1

GNMS-350G and  
GNMS-500G  
Mud Recycling System  
for HDD rigs.

HDD1.2

(Australia)

GN Partnered TT Group  
in Australia, and have  
sold over  
30 Sets complete  
mud system to Australia

HDD1.3  CHINA PETROLEUM PIPELINE

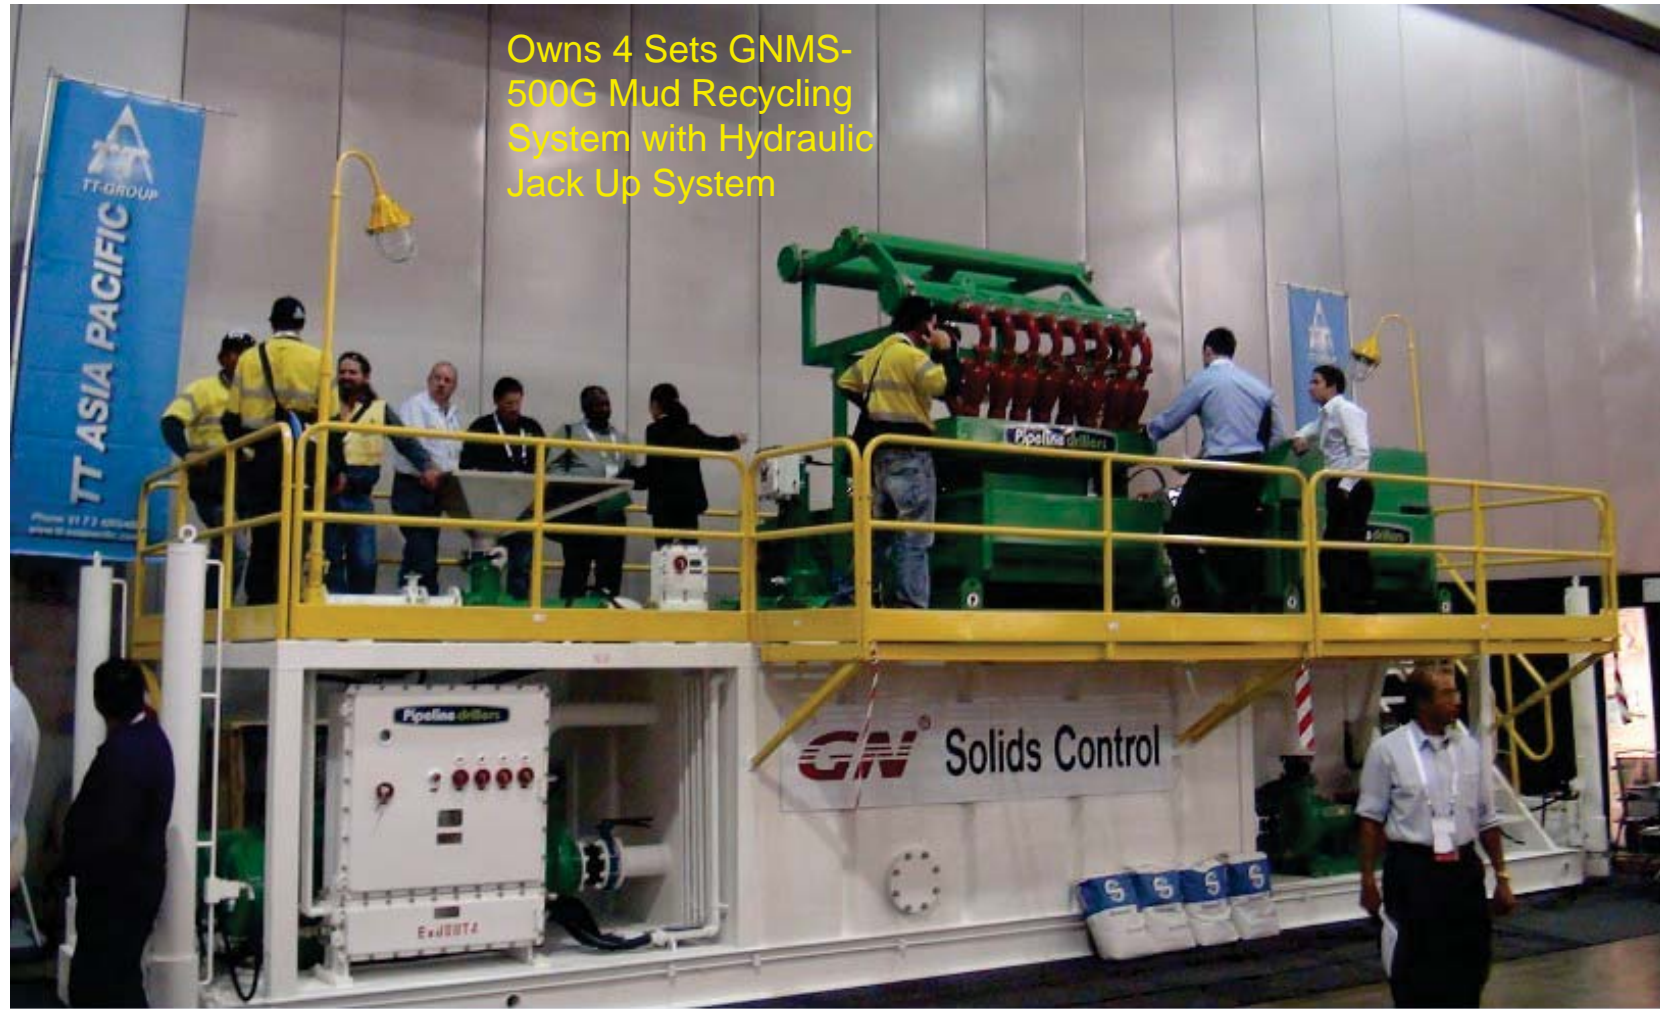

CPP is the largest HDD Contractor in China with over 30+ mud recycling system from GN Solids Control working world widely.

HDD1.4

(Australia)

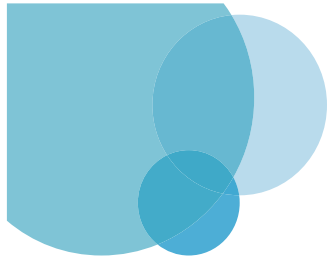

Owens 4 Sets GNMS-500G Mud Recycling System with Hydraulic Jack Up System

## HDD1.5 Tech Drill & Codmah ( Australia)

HDD1.6

(Thailand)

One of the Largest HDD Contractor in Thailand

HDD1.7

Punj Lloyd

(Worldwide)

Public Listed HDD and engineering company in India with worldwide operations. 3 Sets GNMS-500G Mud System and 3 Sets Solids Control Equipment for 1000GPM Mud System from GN.

## HDD1.8 Hong Kong Airport HDD Project

Big HDD Project in Hong Kong Airport starting from beginning of 2016, using 2 Sets GNMS-1500G Mud Recycling System for two 5.2KM fuel pipeline.

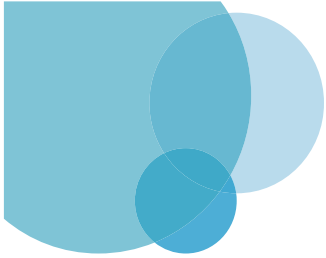

HDD1.9

(South Korea)

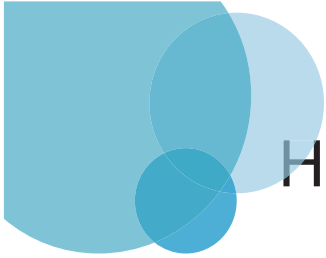

HDD1.10

(India)

HDD1.11

(Saudi Arabia)

## HDD1.12 Middle East & Africa HDD Projects

# HDD1.13 Russia & Europe HDD Projects

## HDD1.14 China Domestic HDD Projects

The GNMS-1000G and GNMS-500GL Mud recycling system working for big projects in mainland China.

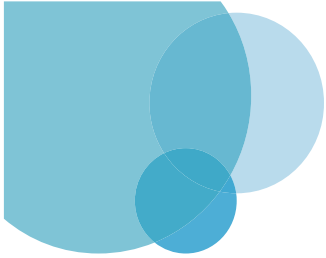

## HDD1.15 India Trenchless Engineering Company

5 Sets Mud Recycling System  
From GN Solids Control

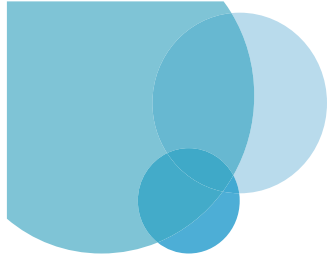

HDD1.16

Trenchless Engineering Company

GN Mud Recycling and Dewatering Package for big HDD project in China

# Part 2

## CBM Drilling Projects

CBM drilling project is one of the important division for GN Solids Control, many drilling rig manufacturer and drilling contractor work with GN Solids Control for the CBM drilling mud solids control solution include but not limited to following:

- 2.1) SCHRAMM (USA CBM Rig Manufacturer)
- 2.2) NSW Gov. Water ( Government Company from Australia)
- 2.3) SPT Energy Group Inc. (Public Listed Drilling Service Company)
- 2.4) Southwest Pinach ( India CBM Drilling Company)
- 2.5) Major Drilling ( Headquater in Canada working worldwidely)
- 2.6) China COAL GEOLOG Engineering Corporation
- 2.7) JM (Shanxi Lanyan) CBM Group
- 2.8) Hebei CBM Drilling Company

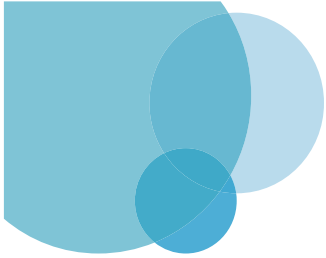

CBM 2.1

(USA)

**GN<sup>®</sup>**  
**SOLIDS CONTROL**

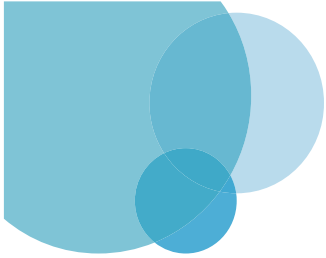

CBM2.2

Department of  
Primary Industries (Australia)  
Office of Water

CBM2.3

SPT Energy Group Inc.

华油能源集团

(Worldwide)

4 Sets Mud System for Overseas CBM Drilling Projects.

CBM2.4

**South West  
Pinnacle**

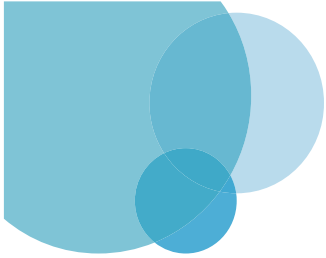

(India)

Hydraulic Jack up Fast moved mud system

CBM2.5

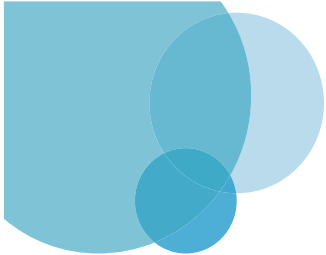

(Worldwide)

One of the Largest Mining Drilling contractor with 500+ Drilling rigs around the world.

CBM2.6

(China)

China COAL GEOLOG  
Engineering Corporation is on  
of the Largest CBM  
exploration company in China

# CBM2.7

## Water and GEO Drilling Projects

GN Solids Control provide customized mud system for Water and geothermal well drilling projects, with the state of the art shale shaker and decanter centrifuges from the same Brand, GN is able to provide you cost-effective solids control solutions for your water well or geothermal well projects, following is some of the projects we have done:

- 3.1) Geotech Developments (GN Partner in UK)
- 3.2) KWDC (Big water well drilling company in Middle East)
- 3.3) ORDGEO LLC (Mongolia Water Well Drilling Company)
- 3.4) Vac-Jet Singapore Project
- 3.5) Europe GEO Project
- 3.6) Africa Water Well Drilling Project

3.1

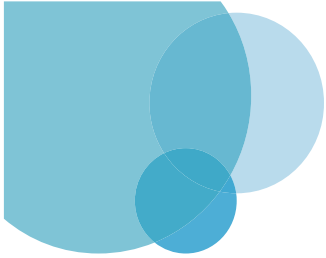

(UK and Europe)

GN Solids Partner in UK for Water well and Geothermal well drilling, and waste management business.

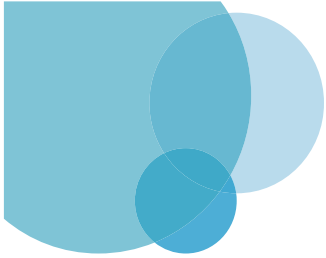

3.2

(Middle East)

4 Sets Mud System for Water well drilling from GN Solids Control

3.3

(Mongolia)

Compact Mud System for Water well Drilling in Mongolia

## 3.4 Vac-Jet Singapore Project

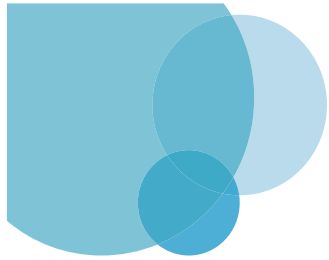

## 3.5 Europe GEO Project (Europe)

## 3.6 Africa Water Well Drilling (Africa)

# Part 4

## Diamond Core Drilling Projects

The diamond core drilling is popular in the mining industry, the solids removal unit designed for diamond core drilling should be compact with small shaker and small centrifuge for ultra fine solids removal:

- 4.1) Papua New Guinea Core Drilling Project
- 4.2) Australia Diamond Core Drilling Project
- 4.3) Canada Diamond Core Drilling Project
- 4.4) Chile Diamond Core Drilling Project

## 4.1 Papua New Guinea Project

## 4.2 Australia Diamond Drilling Project

## 4.3 Canada Diamond Drilling Project

GN Solids Have supplied over 50+ small centrifuge to Diamond drilling industry in Canada.

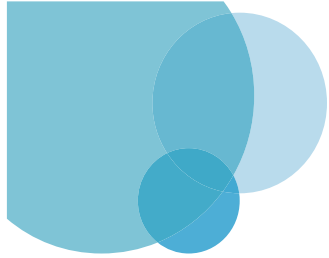

## 4.4 Chile Diamond Drilling Project

Solids Removal Unit for  
Diamond Core Drilling Projects  
in Chile

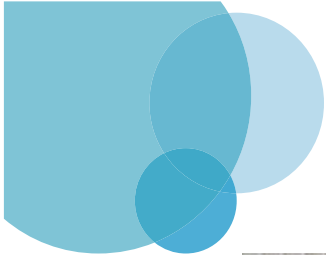

# Part 4

## Bored Pile & TBM Projects

GN Solids Control provide desanding plant, slurry separation plant, shale shaker and dewatering centrifuges for bored Pile foundation, Tunnel boring machine project, and the construction mud or water treatment solutions. :

- 5.1) China Railway Tunnel Group Ltd
- 5.2) Singapore TBM Project
- 5.3) Hongkong TBM Project
- 5.4) Myanmar Desander Plant for Bored Pile
- 5.5) Oman TBM Project
- 5.6) Saudi Arabia Bored Pile Project
- 5.7) USA Bored Pile Project
- 5.8) China Domestic Bored Pile Project
- 5.9) USA California Construction Mud Project

5.1

中国中铁

中国中铁隧道集团有限公司

CHINA RAILWAY TUNNEL GROUP CO.,LTD.

World Top 500 Company

Largest Tunnel Engineering Company in China

With many dewatering centrifuges from GN Solids Control for TBM mud treatment

## 5.2 Singapore TBM Project

# GN Customer Feedback (A)

HEBEI GN SOLIDS CONTROL CO.,LTD  
Генеральному директору  
Господину TOMZHOU

21 мая 2015г.  
Исх. 98/21.05

Россия Каспий  
Бизнес-Центр Монарх  
Ленинградский проспект, 31А, стр. 1  
Этаж 27-28  
Москва, Россия, 125284  
Телефон: 7495.771  
Факс: 7495.771  
www.bakerhughes.ru

Уважаемый господин TomZhou!

От имени подразделения «Экологический сервис буровых растворов» компании «Бейкер Хьюз Б.В.» выражаю признательность и искреннюю благодарность компании «HEBEI GN SOLIDS CONTROL CO.,LTD» за высокий профессионализм и выполнение договорных обязательств в рекордно-короткие сроки.

On behalf of Baker Hughes mud services dept, we give sincerely thanks for GN Solids Control high professionalism, as well as completion of the contract delivery in a very short time.

Сложное технологическое оборудование, включая вертикальный осушитель буровых шлам, выполнено в соответствии международных стандартов качества и превосходит по отдельным характеристикам лучшие модели известных западных мировых производителей.

Equipment, including vertical cuttings dryer, is with complex manufacturing specifications, which is fully compliance with international quality standards and performance is even better than European /US similar products.

Четыре мобильные системы по осушке шлама и очистке от твердых фракций бурового раствора производства компании «HEBEI GN SOLIDS CONTROL CO.,LTD» успешно работают на месторождении Западной Сибири России в тяжелых климатических условиях и при высоких нагрузках.

The 4 sets drilling waste management system produced by HEBEI GN SOLIDS CONTROL CO., LTD is working properly under high work load in polar environment in Siberian oilfield, west of Russia.

Китайские и Российские специалисты совместно настраивали и запускали модули, установленные у четырех буровых установок, вносили конструктивные системные изменения для эффективности работы оборудования и добились хороших результатов: в настоящее время выполняются жесткие экологические требования по охране окружающей среды и возвращается обратно в систему для вторичного использования очищенный от механических примесей буровой раствор с дорогим минеральным маслом.

The 4 sets drilling waste management system is installed and tested under cooperation of China and Russia personnel; partial improvement is arranged to improve the performance of the equipment. Now the equipment has got approval from related strict requirements of environmental protection.

Сотрудничество с Вашей компанией, зарекомендовавшей себя как надежный производитель сложного, современного и эффективного оборудования для контроля твердой

фазы, позволяет нам качественно и в срок выполнять обязательства перед заказчиками на протяжении всего времени.

As reliable solids control equipment & drilling waste management equipment manufacturer, being cooperation with your company ensure the quality of completion the requirements of owner , within prescribed time.

Надеюсь на дальнейшее сотрудничество в совместной реализации более сложных проектов на месторождениях России и стран Каспия

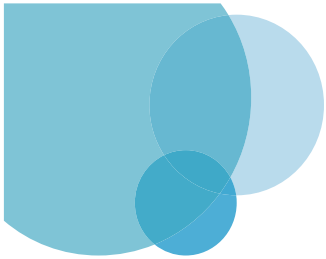

Looking forward more cooperation with your esteemed company in Russia and Caspian Sea oilfield project.

From: Jahan Hafar Iranian Co

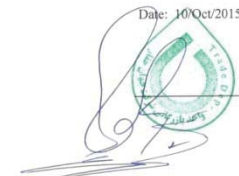

Re: GN VFD Centrifuge performance in Iran

To: Whom it may concern

Our company Purchased 8 sets of GN VFD drive Decanter Centrifuges with Model GNLW363BG-VFD and GNLW363CG-VFD since May 2014, the VFD cooling system is Vertex Tube Cooling. Our project is in Iran, and we run the VFD centrifuge from September 2014 to OCT 2015. During the Summer time, the temperature is up to 55°C. But the GNLW363BG-VFD centrifuges are working well under such temperature. We are happy with performance of the decanter centrifuge made by GN Solids Control.

Best Regard and Thanks.

Date: 10/Oct/2015
