Part 1

Solids Control & Waste Management Companies

As the leading manufacturer for solids control & Waste Management equipment, GN Solids Control has been working with many big brands for Solids Control & Waste Management. Include but not limited to following companies:

- 1.1) Baker Hughes (1 of the top 10 largest oilfield service company)
- 1.2) Baroid (Top Mud and Solids Control Service Company)
- 1.3) Egypt Mud Engineering Company (Largest Local mud service company in Egypt)
- 1.4) Akros LLC (Russia No.1 Drilling Fluids Company)
- 1.5) Scomi Oiltools (1 of the world famous solids control service company)
- 1.6) TWMA Group (UK and Worldwide Waste Management Service Company)
- 1.7) CPVEN (Venezuela Largest local oilfield service company)
- 1.8) Carboflex (Brazil top Solid Control & DWM company)
- 1.9) SL Group (Top Argentina Solids Control Service Company)
- 1.10) Oxy Oman (One of the top oil company)
- 1.11) Greatwall Drilling Fluids Company (China Largest Mud Service Company)
- 1.12) Europe & Russia Waste Management Company
- 1.13) Sinopec and CNPC Domestic Projects
- 1.14) KOC Oil Sludge Treatment Project
- 1.15) Qatar Waste Management Company

SC1.1

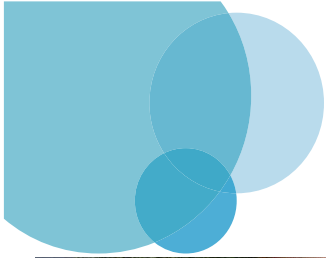

- 1) 4 Complete DWM System in 2014 with 4 Cuttings Dryer+4 VFD Centrifuge.
- 2) One Big Project for UAE, Middle East in 2016.

SC1.1

SC1.2

Decanter Centrifuges
Shale Shakers
Mud Mixing Plant
And agitators and pumps

SC1.3

(Egypt & Algeria)

EMEC is the Largest Local Drilling Mud Company in Egypt ,40+ decanter centrifuges from GN Solids

SC1.4

(Russia)

SC1.5 Scomi

Working with GN
From year 2010.

SC1.6

(UK & Worldwide)

High Standard VFD Centrifuge

- 1) ATEX Zone 1 Pressurized Ex-Proof Certified
- 2) With AC for temperature up to 55 C degree.
- 3) Europe CE certified centrifuge.
- 4) DNV 2.7-1 lifting certified for Offshore application.

SC1.12 Europe & Africa Projects

ATEX Zone 1/Zone 2
Certified DWM System
For Europe

SC1.13 Sinopec and CNPC DWM Project

Because of new regulations GN supplied over 40 DWM system to China market from middle of 2014 to 2015, GN is the leading Supplier for DWM

SC1.13 Sinopec and CNPC DWM Project

SC 1.14 Kuwait Oil Company Project (Worldwide)

One Sets 15m³/h Oil Sludge
Treatment System for KOC
Project

SC1.14 Qatar Waste Management Company

Two Sets 20m³/h Oil Sludge Treatment System for Refinery Oil Sludge

II、 Oil Drilling / Exploration Company

GN Solids Control supplied solids control systems for many drilling or exploration company in the world, including following but not limited to following companies:

- 2.1) ExxonMobil (One of the world largest oil company)
- 2.2) Burgan Drilling Company (Kuwait second largest drilling company)
- 2.3) COSL (China Oilfield Services Limited)
- 2.4) ERIELL Group (Top Oil Drilling and Exploration Company in Russia)
- 2.5) Webster Drilling Company (One Of the Largest New Zealand Drilling Company)
- 2.6) Gazprom (Russia Top Drilling and Exploration Company)
- 2.7) Rosneft (Russia Top Drilling and Exploration Company)
- 2.8) Focus Energy Limited (Top Oil Exploration Company In India)
- 2.9) John Energy Limited (Top Drilling Company In India)
- 2.10) GYP Turkey (Top Turkey Oil Exploration Company)
- 2.11) Sterling Oil(SEEPCO) (Nigeria Big Oil Exploration Company)
- 2.13) Pertamina (Indonesia Oil Company)
- 2.13) National Drilling & Services Company LLC (Oman)
- 2.14) G-Drilling Poland (One of the top drilling company in Poland)
- 2.15) Egyptian Drilling Company (Egypt Largest Drilling Company)
- 2.16) Greatwall Drilling Company (Drilling Section, 1000+ Oil Drilling Rigs)

OD2.1 **ExxonMobil** (Worldwide)

GN working with a drilling rig manufacturer in Australia and provide the helicopter mud system to ExxonMobil for PNG oil gas drilling

OD2.14 G-Drilling (Poland Drilling)

4 Sets ATEX Ex Oil Drilling Mud System in 2013 and 2014 include:
8 Shale Shakers, 4 Mud Cleaners, 24 Pumps, 12 Mud Tanks and centrifuges etc.

OD2.15

Egyptian Drilling Company

EDC is the largest drilling contractor in Egypt, GN supplied Solids Control Equipment and shaker screens to EDC

OD2.16  Greatwall Drilling Company (Oil Drilling)

Largest Oil Drilling Contractor
In China
Over 1000 Oil rigs

III 、 Drilling Rig Manufacturer

GN Solids Control is the first Option for the drilling rig manufacturer export drilling rigs, GN Solids Control has been working with big rig manufacturers for first level solids control equipments:

- 3.1) Honghua Group (HH)(World Largest Land Drilling Rig Manufacturer over 200+ Rigs per year)
- 3.2) SJ Petroleum (A Sinopec Company)
- 3.3) RG Petroleum (A USA and China Joint Venture Company)
- 3.4) Jereh Group (Largest Private Owned Public Listed Company in China Oil Industry)
- 3.5) Drillmec (One of the World Largest Drilling Rig Manufacturer from Italy)
- 3.6) Schramm Inc. (USA Drilling Rig Manufacturer)
- 3.7) TT Asia Pacific (Germany Drilling Rig Manufacturer)

Факс: 7495.771
www.bakerhughes.ru

Уважаемый господин TomZhou!

От имени подразделения «Экологический сервис буровых растворов» компании «Бейкер Хьюз Б.В.» выражаю признательность и искреннюю благодарность компании «HEBEI GN SOLIDS CONTROL CO.,LTD» за высокий профессионализм и выполнение договорных обязательств в рекордно-короткие сроки.

On behalf of Baker Hughes mud services dept, we give sincerely thanks for GN Solids Control high professionalism, as well as completion of the contract delivery in a very short time.

Сложное технологическое оборудование, включая вертикальный осушитель буровых шлам, выполнено в соответствии международных стандартов качества и превосходит по отдельным характеристикам лучшие модели известных западных мировых производителей.

Equipment, including vertical cuttings dryer, is with complex manufacturing specifications, which is fully compliance with international quality standards and performance is even better than European /US similar products.

Четыре мобильных системы по осушке шлама и очистке от твердых фракций бурового раствора производства компании «HEBEI GN SOLIDS CONTROL CO.,LTD» успешно работают на месторождении Западной Сибири России в тяжелых климатических условиях и при высоких нагрузках.

The 4 sets drilling waste management system produced by HEBEI GN SOLIDS CONTROL CO., LTD is working properly under high work load in polar environment in Siberian oilfield, west of Russia.

Китайские и Российские специалисты совместно настраивали и запускали модули, установленные у четырех буровых установок, вносили конструктивные системные изменения для эффективности работы оборудования и добились хороших результатов: в настоящее время выполняются жесткие экологические требования по охране окружающей среды и возвращается обратно в систему для вторичного использования очищенный от механических примесей буровой раствор с дорогим минеральным маслом.

The 4 sets drilling waste management system is installed and tested under cooperation of China and Russia personnel; partial improvement is arranged to improve the performance of the equipment. Now the equipment has got approval from related strict requirements of environmental protection.

Сотрудничество с Вашей компанией, зарекомендовавшей себя как надежный производитель сложного, современного и эффективного оборудования для контроля твердой

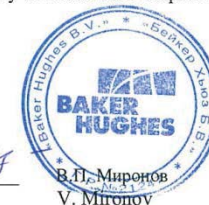

фазы, позволяет нам качественно и в срок выполнять обязательства перед заказчиками на протяжении всего времени.

As reliable solids control equipment & drilling waste management equipment manufacturer, being cooperation with your company ensure the quality of completion the requirements of owner , within prescribed time.

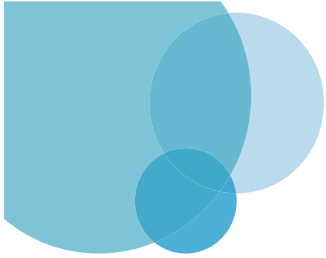

Надеюсь на дальнейшее сотрудничество в совместной реализации более сложных проектов на месторождениях России и стран Каспия

Looking forward more cooperation with your esteemed company in Russia and Caspian Sea oilfield project.

From: Jahan Hafar Iranian Co

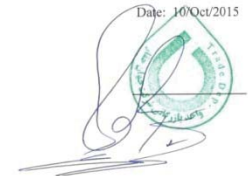

Re: GN VFD Centrifuge performance in Iran

To: Whom it may concern

Our company Purchased 8 sets of GN VFD drive Decanter Centrifuges with Model GNLW363BG-VFD and GNLW363CG-VFD since May 2014, the VFD cooling system is Vertex Tube Cooling. Our project is in Iran, and we run the VFD centrifuge from September 2014 to OCT 2015. During the Summer time, the temperature is up to 55°C. But the GNLW363BG-VFD centrifuges are working well under such temperature. We are happy with performance of the decanter centrifuge made by GN Solids Control.

Best Regard and Thanks.

Date: 10/Oct/2015
